Overview

Techno Vietnam Industries Co., Ltd.

Established: 2009

Paid-up capital: US\$ 850,000

Logo & Slogan:

Technologies of Measures
& Sourcing Solutions

Milestones

2009

Techno started business with the strength of **Technical Services**

2014

Techno focused on **Industrial Markets** while building partnerships with global partners

2019

Techno was honored as **IMV's "Best Services Team 2019"** in Asia

2021

Techno was accredited with **ISO/IEC 17025:2017** for its Calibration Laboratory

2025

The year of **Corporate Culture** development and **Outstanding Revenue** growth for Techno

Present

With over **15 years** of development, Techno continues to grow strongly & **lead the industry**

Main Businesses

1

Test and
Measurement,
Analytical
instruments,
solutions

2

Industrial
Machines &
Automation
Systems

3

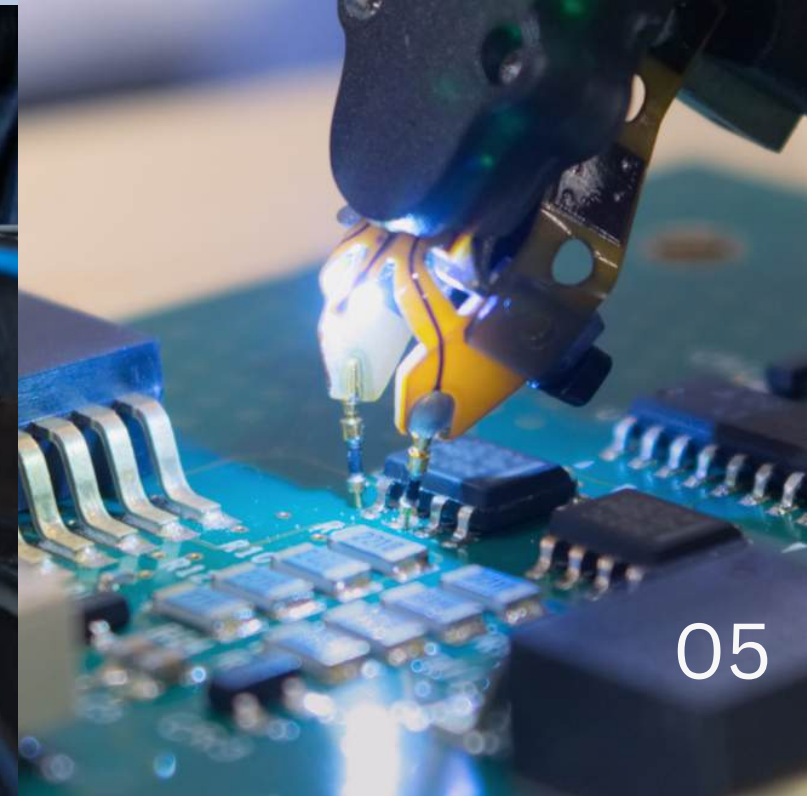

Tools, Parts and
Assessories,
Consumables

4

Technical and
Engineering,
Calibration
Services

5

Semiconductor
Machinery &
Services

Workforce

TECHNO
CEO & DIRECTOR

TECHNO
**Marketing &
Sales**

Assistant**

02
Officers

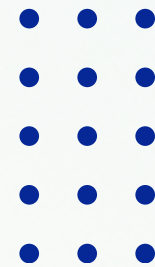

TECHNO Thai Nguyen
Semiconductor & Machinery
02 Engineers

TECHNO HCMC & Nghe An
05 Officers
including **01 Japanese**

TECHNO Singapore
02 Officers

TOTAL (AT MAY 2026): 68

People & Culture

01 Summer Holiday

02 Techno's Day

03 Year End Party

04 Training & Development

05 Picnic with family's members

06 Health Care Check-up

Office Location

Hanoi Office

Service Center & Warehouse

5th Floor, 84 Duy Tan Street, Cau
Giay Ward, Hanoi City

Ho Chi Minh City Office

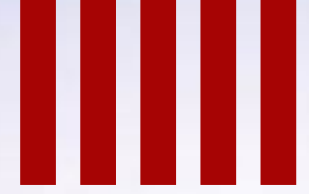

62 Street 1, Quarter 3,
An Lac Ward, HCMC

Thai Nguyen Office

307 Ly Nam De Street, Van
Xuan Ward, Thai Nguyen City

Nghe An Office

Q5, Cua Tien, Vinh Tan Ward,
Vinh City, Nghe An

Core Values

01

**ABSOLUTE
INTEGRITY**

02

EMPOWERMENT

03

**CUSTOMERS
FOCUS**

04

**RESTLESS
INNOVATING**

05

**HIGH
PERFORMANCE**

TECHNO IS **AUTHORIZED DISTRIBUTOR**

IMV CORPORATION (Japan)

IMV is a leading Japanese corporation specializing in **vibration testing and reliability** evaluation for industrial applications.

K-series

High-Excitation-Force Water-Cooled Range

A - Series

Electrodynamic Vibration Test Systems

J- Series

Accommodates high-velocity and large-displacement testing

C- Series

Transportation Test Range

TOYO SEIKI SEISAKU-SHO (Japan)

Toyo Seiki Seisaku-sho, Ltd. is a Japanese corporation specializing in **material testing equipment** and **mechanical property** evaluation for industrial and laboratory applications

Melt Indexer

Rheometer

Impact Tester

Ozone Aging Chamber

Geer Oven

Universal Testing Machine

Temperature & Humidity
Chamber

Walk-in Chamber

Thermal Shock Chamber

cosmopia

COSMOPIA HIGHTECH CORP (Japan)

Cosmopia Hightech Corp is a Japanese manufacturer of specialized environmental testing equipment, renowned for **thermal shock chambers** and **temperature & humidity test chambers**.

XAVIS (Korea)

XAVIS is a Korean solution provider offering comprehensive **industrial X-ray inspection** systems and **automation equipment**.

Xscan A-series for PCB, FPCB

Xscan H-series for Semiconductor, BGA

Xscan C-series for Diecasting

Xscan C080/C060 semiconductors
counting in reels

TOKYO SEIMITSU (Japan)

Accretech is a brand of a leading Japanese corporation specializing in **optical measurement and precision inspection** solutions for high-tech and industrial applications.

Coordinate measuring
machine (CMM)

Surface Texture and Contour
measuring machine

Probing Machines

SHINYEI TECHNOLOGY (Japan)

Shinyei Technology Corp is a reputable Japanese corporation specializing in **measurement instruments, sensors, and environmental control** solutions for industrial applications.

Drop Tester

Mechanical Shock Tester

Pendulum Shock tester

Box Compression tester

JEOL is a leading Japanese manufacturer specializing in **nanotechnology, biotechnology, and semiconductor**-related scientific equipment.

SEM

GCMS

EDXRF

TEM

NMR

IWASAKI ELECTRIC (Japan)

Iwasaki Electric is a long-established Japanese manufacturer globally renowned for advanced **lighting solutions, environmental systems, and UV/Xenon technologies.**

Xenon Test Chamber

Multi light source Test Chamber

UV Test Chamber

POLYTEC (Germany)

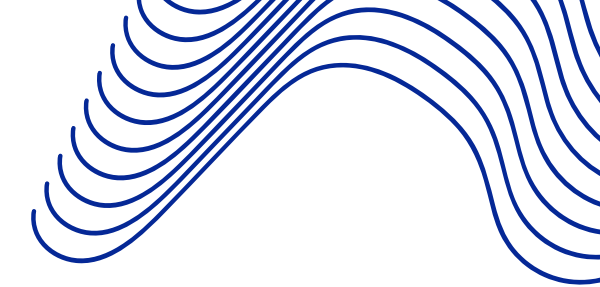

Polytec is a leading global high-tech company specializing in **optical measurement technology, laser-based vibration sensors, and surface metrology.**

Profilometer

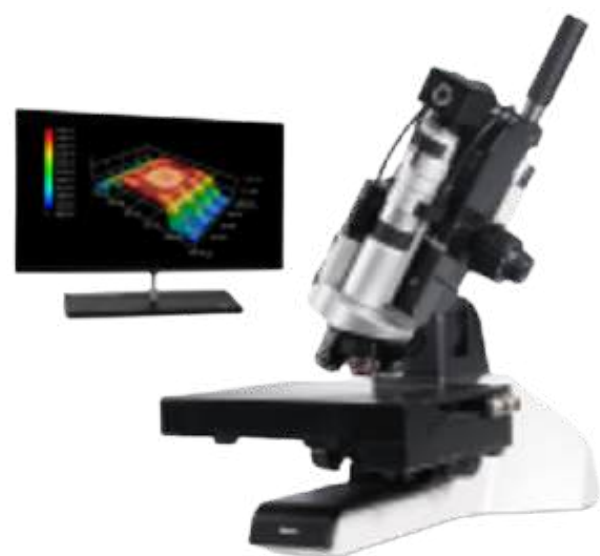

Laser vibrometer

Motic MOTIC (China)

Motic is an international manufacturer of **microscopes and optical equipment** for R&D, education, and industry

Digital Microscope

Metallurgical Microscope

Stereo Microscope

Inverted Microscope

Scanning Electron Microscope (SEM)

HEXAGON (Sweden)

Hexagon is a Swedish technology leader specializing in **VMM, CMM, and precision metrology solutions** for industrial measurement and quality control.

OPTIV M Vision+

3D MAESTRO

Arm 7-Axis

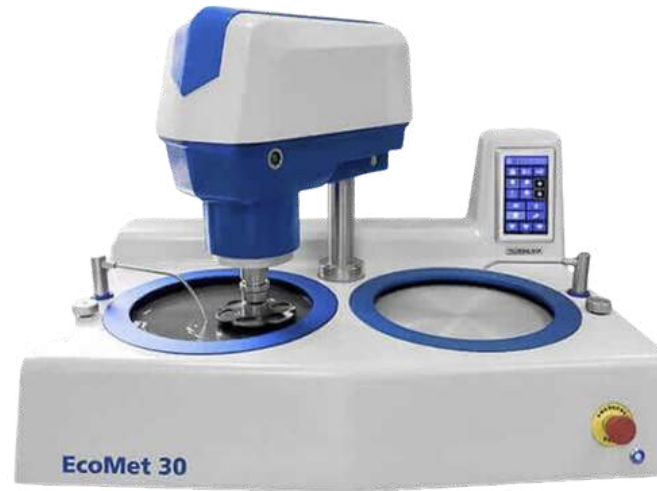

Leica Absolute tracker

Buehler is a leading American manufacturer specializing in **sample preparation equipment** for **metallography and material analysis** applications.

Cutting Machine

Grinding/ Polishing Machine

Mounting Machine

Grinding/Polishing Consumables

Cutting Consumables

Mounting Consumables

OTHER PARTNERS

JASCO Corp (Japan), specializes in **Spectroscopic analysis** instruments, **high-performance liquid chromatography (HPLC)**, and **Raman microscopy**.

CLIMATS (France), specializes in **environmental testing equipment** and **climatic chambers** for industrial and laboratory applications

Daikin Lubrication System (Japan), specializes in **Lubrication systems**, **Grease pumps**, and **industrial Valve** solutions

Erhardt+Leimer (Germany), specializes in **Web guiding and Automation systems** for the **Textile, Tire, and Rubber industries**.

Tekscan (US), specializes in **pressure mapping and force measurement systems** for industrial, medical, and research applications.

OTHER PARTNERS in Semiconductor

Hon. Precision, Inc. (Honprec) (Taiwan), specializes in **semiconductor automation** equipment.

Maxell (Japan), specializes in **Plating, Metal Mask, Test wafer, Consumables, Parts** for Semiconductor packaging, Solder ball mounting,...

AIMECHATEC (Japan) specializes in **Solder Ball mounting system, Plasma laser inspection system, Wafer bonding**, Optical bonding system, UV curing system

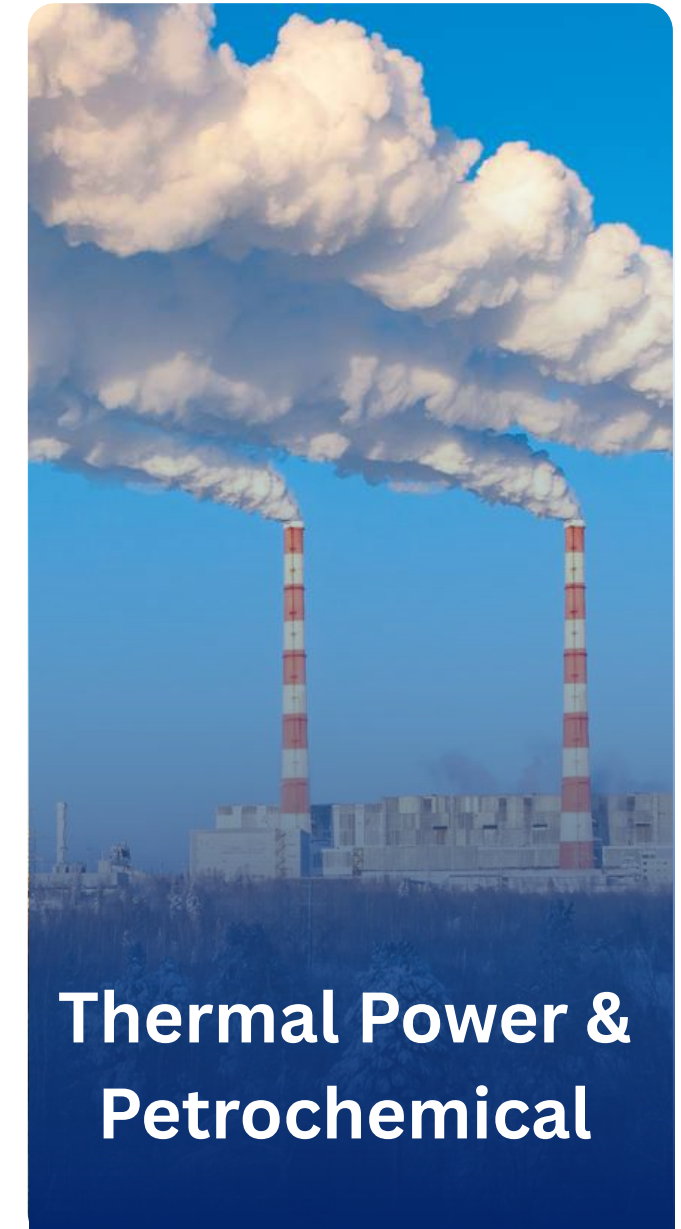

HORIBA (Japan), specializes in **analytical and measurement instruments** for automotive, environmental, scientific, and industrial applications

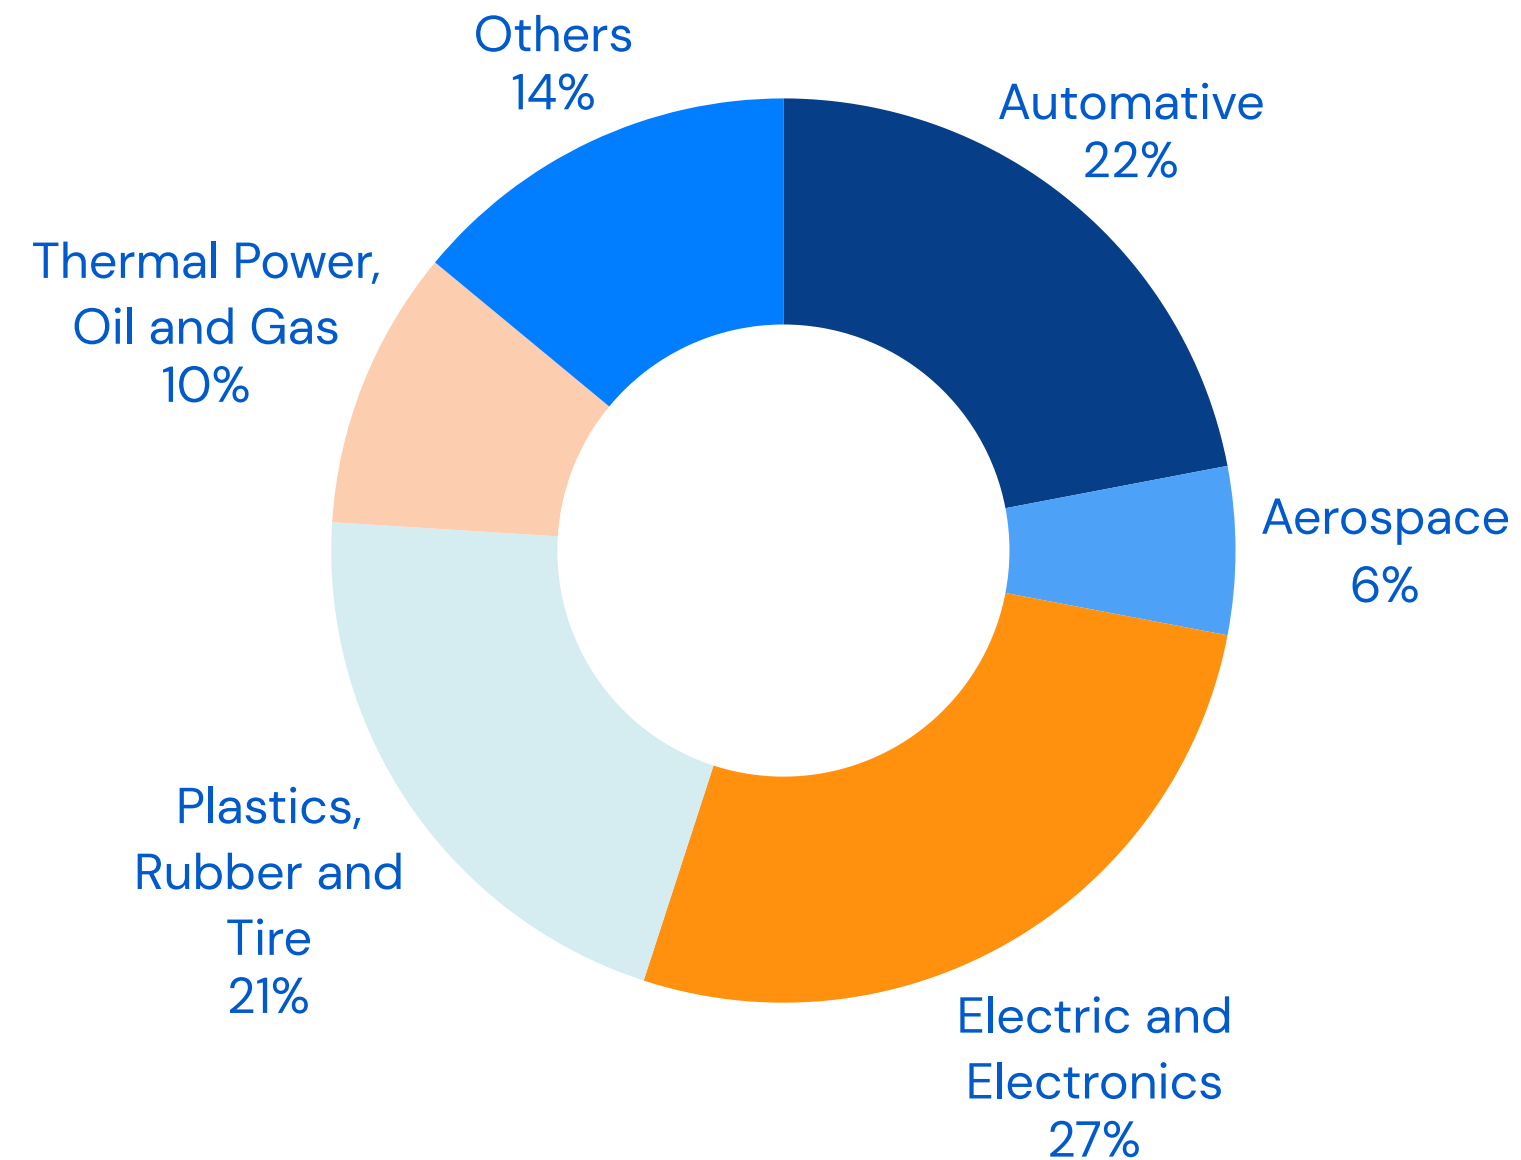

Seiwa Optical (Japan), specilzes in **Exposure system, Inspection & Repair System, Laser system** for Semiconductor Processes

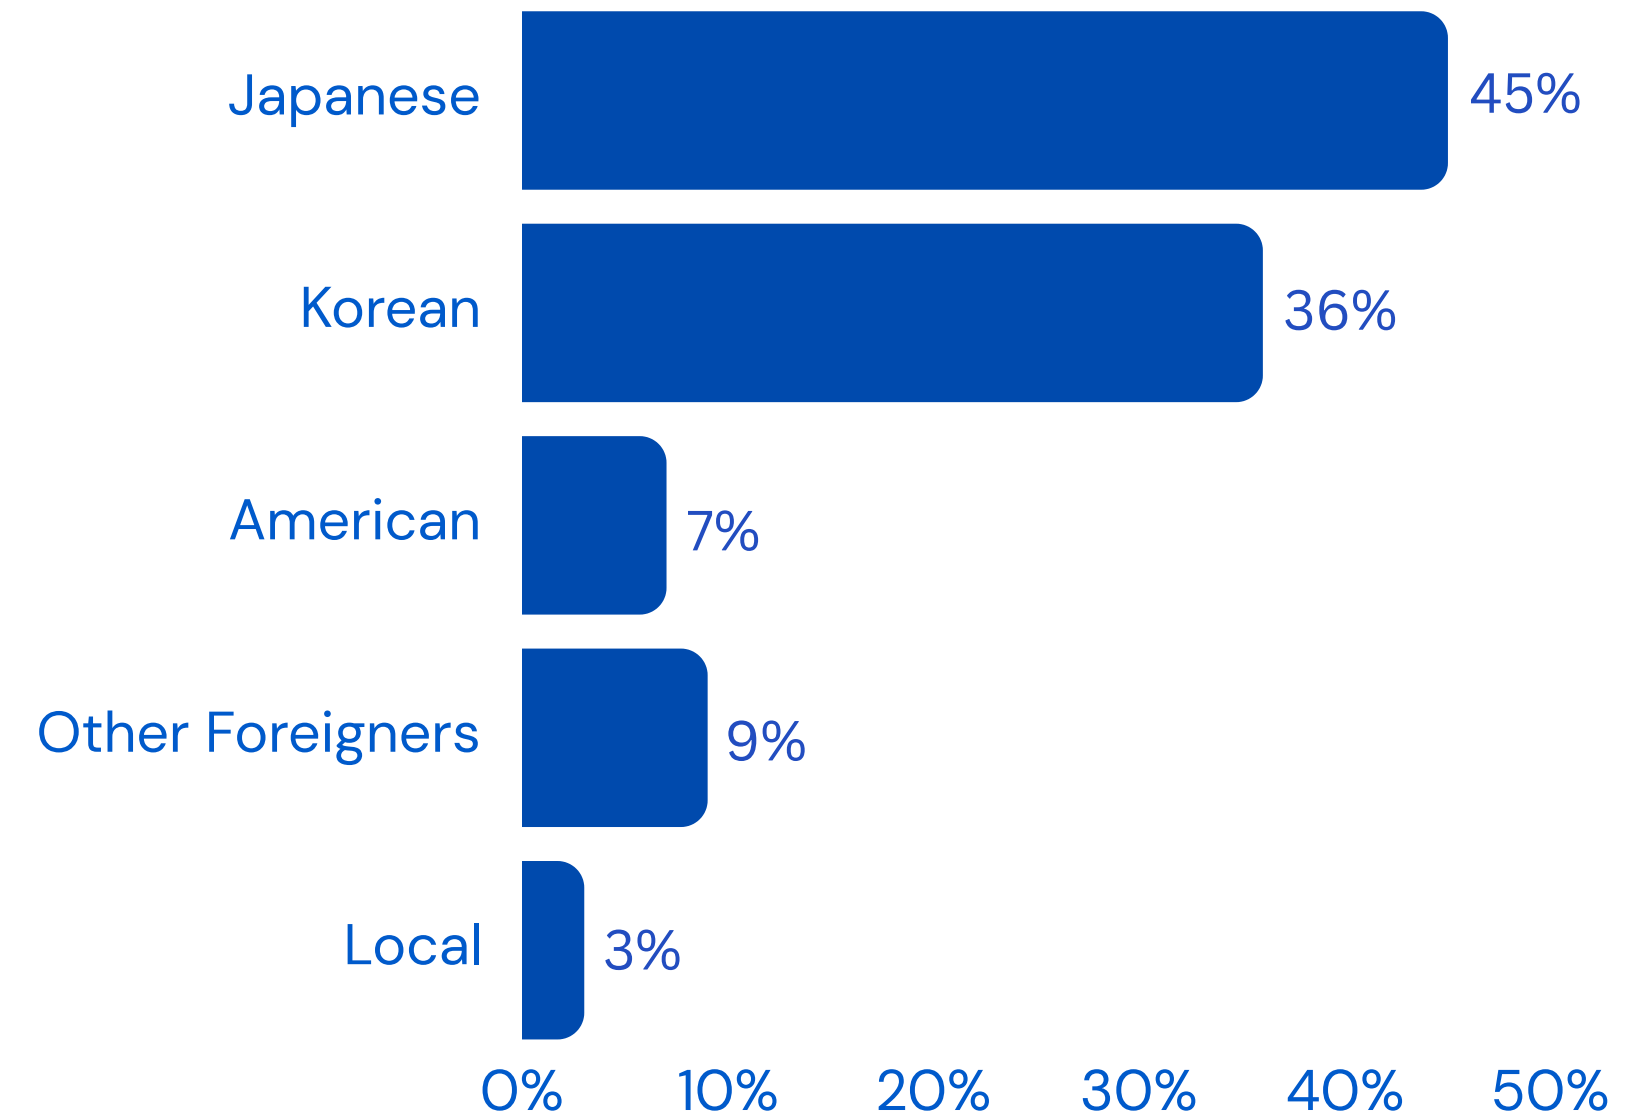

Key Industries of Customers

In 2025

Sales by Industries

Sales by Customers

Facilities

533 m² Head Office

with modern office equipments

100 m² Service Center & Warehouse

with equipped instruments and logistic system

250 m² Rental Bonded Warehouse

Office Space

Explore our modern workspace with a total area of 533 m²:

- **5th Floor – 385 m²:** Office workspace, Meeting rooms, Reception area
- **4th Floor – 148 m²:** Services Center, Calibration & Repair area, Warehouse
- **2026 Expansion Plan:** Additional workspace on the 3rd Floor

Sourcing & Logistic Capabilities

03 Partners
(HQ in Japan)
for sourcing
Japanese
items

01 Partner
from US
for sourcing
US items

01 Affiliated Company
in Singapore

Bonded Warehouse (250m²)
in Yen Phong, Bac Ninh,
provided by **YUSEN Logistic**
Solutions Vietnam

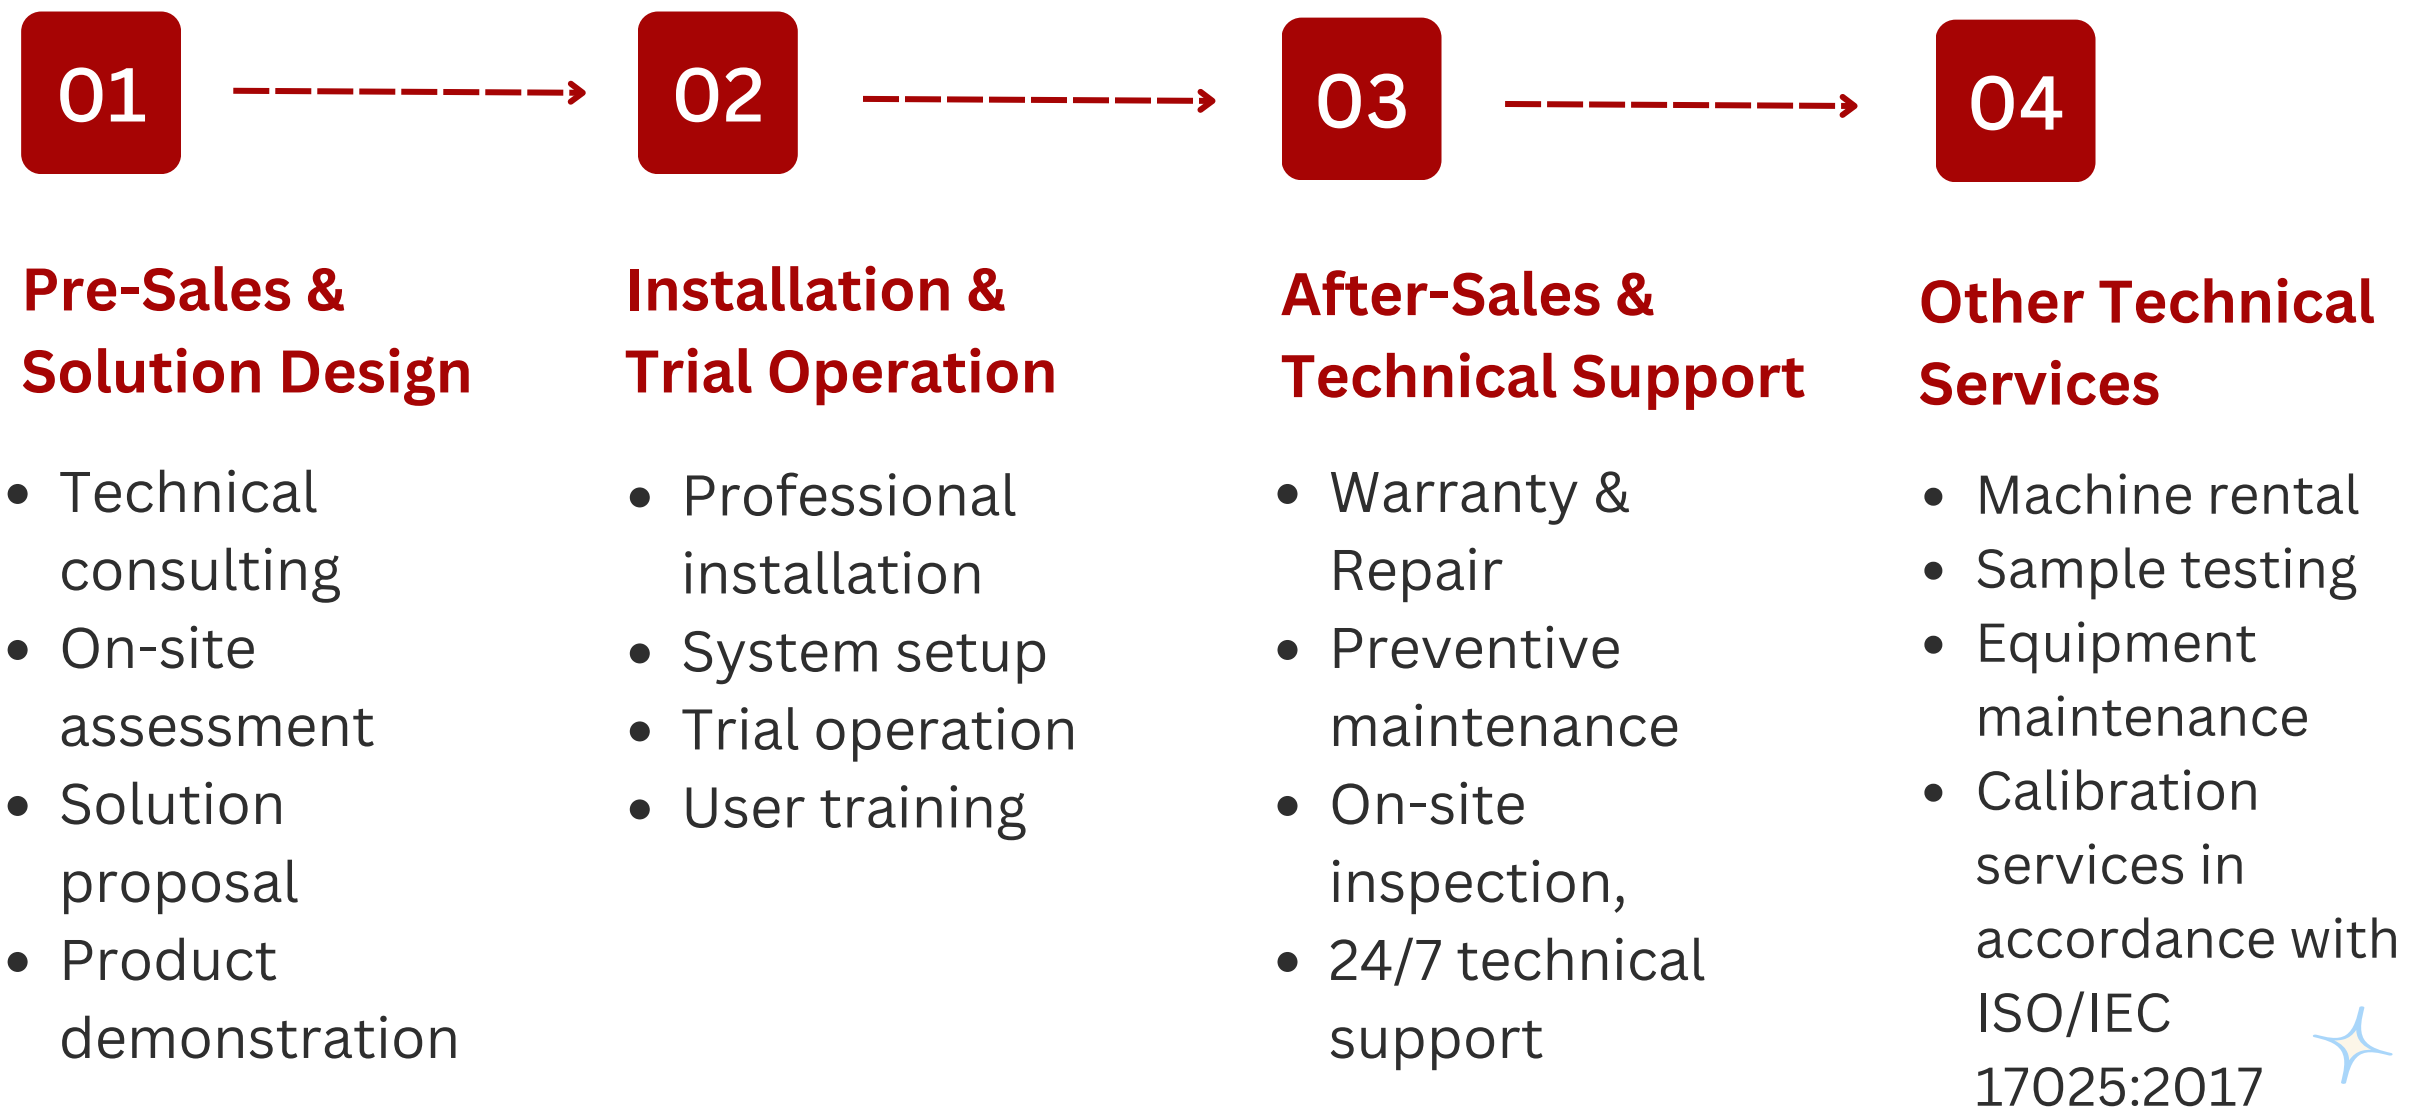

Priority Customer
of **FEDEX**

Technical Capabilities

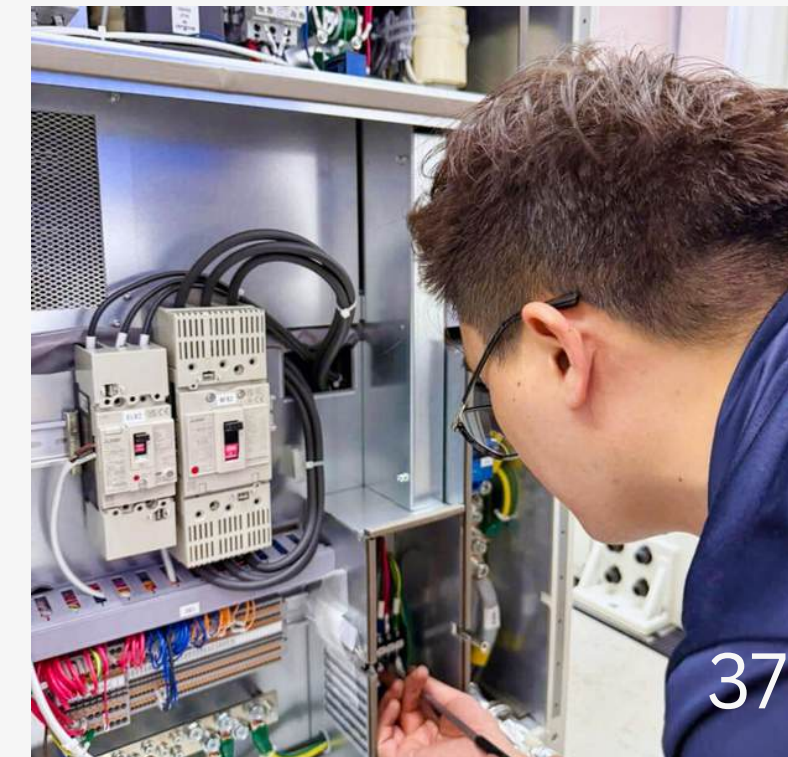

Techno provides comprehensive technical services to support customers throughout the entire product lifecycle – from solution consulting to installation, maintenance, and technical support.

Technical Services

Techno. with professional Technical Services:

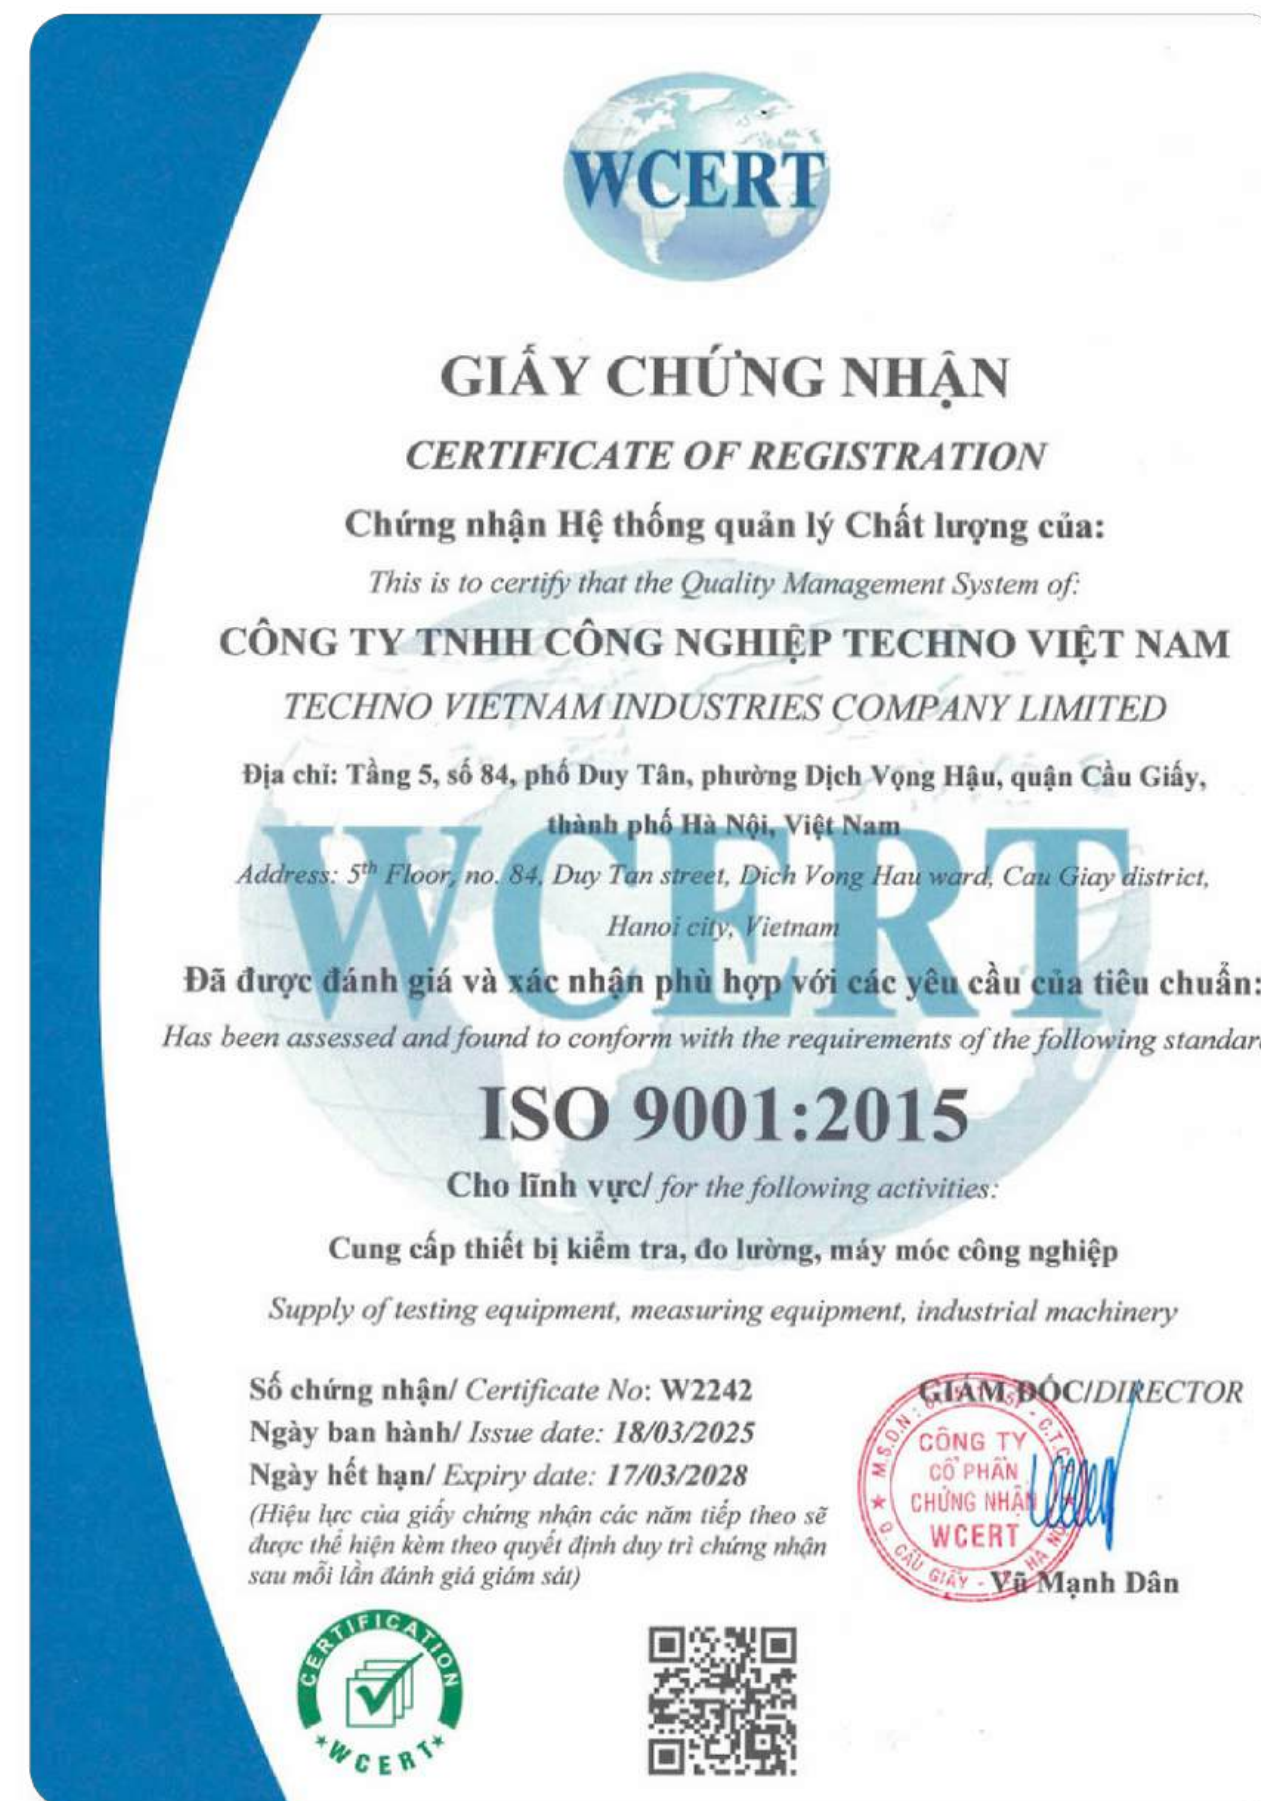

- *Technical Consult, Machine Demo*
- *Installation, Operation, User Training, Repair, Maintenance*
- *Calibration & Re-Calibration, other Engineering Support Services*

ISO 9001:2015

Techno achieved **ISO 9001:2015**
first time since November 2019

An ISO 9001:2015 certified company follows international quality management standards to ensure consistent **product/ service quality**, continuous improvement, and customer satisfaction.

ISO/IEC 17025

Techno's Calibration Labs with **ISO/IEC 17025:2017** Accreditation

ISO/IEC 17025:2017 is an international standard for **testing and calibration laboratories**, ensuring accurate, reliable, and technically valid results through qualified personnel and properly calibrated equipment.

Future Plan

1.

Expanding business to
**Semiconductor
Manufacturing** -
related Machineries
and Services

3.

More **Sales and
Service Engineers** in
HCMC, Haiphong

2.

More **Partners/ Suppliers**
in material test,
durability & reliability
test to Electronic,
Automotive Parts

4.

More **Calibrations** are
Accredited in ISO/IEC
17025:2017
